Using Search Engines

If you do not know what the URL is of a page, you can find it through a search engine. There are literally hundreds of search engines. A search engine is web-based service used to search for information on the internet and World Wide Web. You can search a topic by typing a series of words in the search box and pressing the enter key.

Some common search engines are:

- Google (www.google.com)
- Yahoo (www.yahoo.com)
- AltaVista (www.altavista.com)
- MSN (www.msn.com)
- Netscape (www.netscape.com)
